CAREER OBJECTIVE

I am a Full Stack Developer skilled in TypeScript, Node.js, Express, PostgreSQL, Prisma, and Next.js, having built full-stack applications like Jobnest. My goal is to grow as a professional engineer by contributing to impactful, real-world projects in a collaborative team environment. I am looking to secure a Full Stack Developer role where I can apply my skills and continue learning.

SKILLS

Technical: JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Tailwind CSS, shadcn/ui, REST API Design, JWT Authentication, Zod, Stripe & SSLCommerz Payment Integration, Git & GitHub.

Interpersonal: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability.

PROJECTS

JobNest - Bangladesh-Focused Job Portal

[Live Link](#) | [Client GitHub](#) | [Server GitHub](#)

- Built a full-stack job portal with role-based dashboards for Candidates, Employers, and Admins, implementing JWT authentication, Google OAuth, and secure cookie-based sessions.
- Developed an end-to-end job application workflow, allowing candidates to apply and track applications while employers manage candidates through different hiring stages.
- Implemented job search, filtering, pagination, saved jobs, company profiles, reviews, and an Admin job approval workflow to support real-world recruitment operations.
- Designed a modular REST API using TypeScript, Express.js, PostgreSQL, Prisma, and Zod, with role-based middleware, centralized error handling, validation, and soft-delete support.

GearUp - Sports & Outdoor Equipment Rental Platform

[Live Link](#) | [Client GitHub](#) | [Server GitHub](#)

- Built a full-stack rental platform with role-based dashboards for Customers, Providers, and Admins, using Next.js 16, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma.
- Implemented secure rental management with real-time stock tracking and atomic transactions, preventing overbooking during concurrent rental requests.
- Developed an end-to-end rental workflow with order status transitions, server-side price calculation, ownership-based authorization, and rental history, supporting the complete booking lifecycle.
- Integrated SSLCommerz payments with secure JWT authentication, httpOnly cookies, refresh-token handling, and dedicated payment success/cancel flows.

EDUCATION

Diploma in Computer Technology

Feni Ideal Polytechnic Institute | Passing Year: 2018
